## How to find your ring size

Whether you're looking for a ring for yourself or someone you love, get the size right first time using our sizing chart that you can print at home. You can measure a ring that you – or the person you're shopping for – already wear or self-measure using a piece of string then match up the dimensions on the diagram below.

Print this page out on A4 paper and use the line below to double check the size – it should be the same width as a credit card. If it doesn't match, make sure your page scaling is set to 'none' or 'default'.

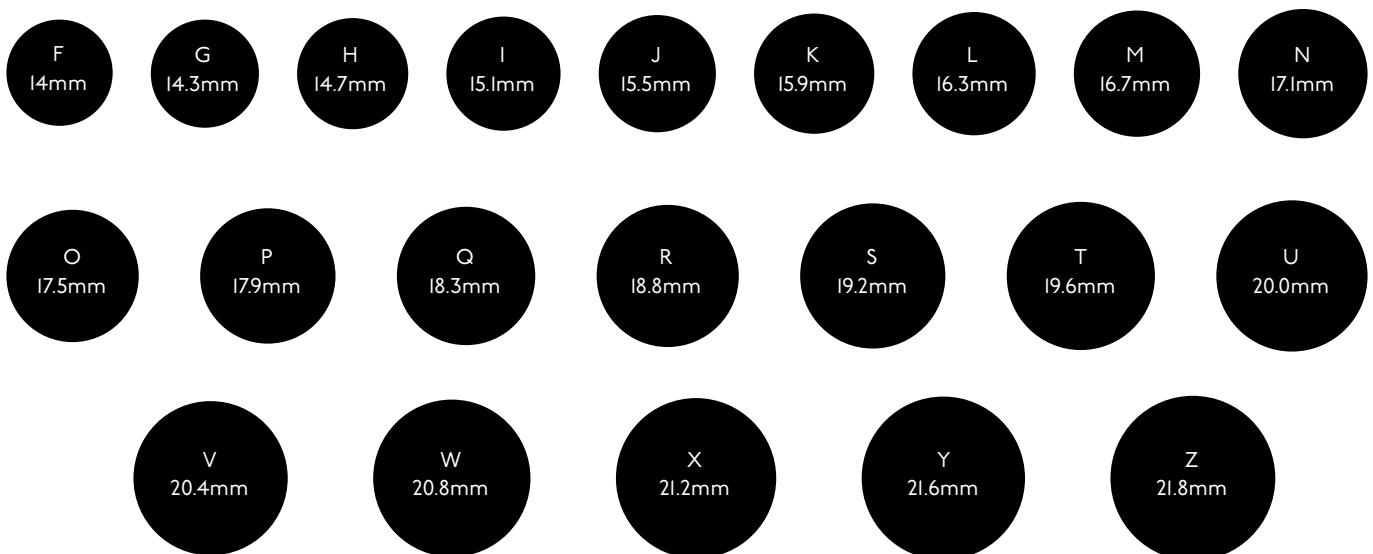

## Size Chart

1 Find a ring that fits you (or the person you are buying a gift for).

2 Find the circle that is the best fit for the inside of the existing ring.

The inside lining of the band should align perfectly with the outer edge of the circle.

Alternatively lay the ring on top of a ruler, and measure the widest area inside the ring from inner edge to inner edge. If your ring is not circular, measure the shortest distance across.
